Rodney Jones, M.D.

Commonly performed Interventional Pain Management Procedures and CPT codes

- **Lumbar, Cervical, and Thoracic**
 - Epidural Steroid Injection
 - Lumbar/Caudal 62311
 - Cervical/Thoracic 62310
 - Transforaminal Epidural Steroid Injection
 - Lumbar 64483-64484
 - Cervical/Thoracic 64479-64480
 - Medial Branch Blocks of Facets Joints
 - Lumbar 64493-64495
 - Cervical/Thoracic 64490-64492
 - Facets Joint Injections
 - Lumbar 64493-64495
 - Cervical/Thoracic 64490-64492
 - Atlanto Axial Joint Injection 64490
 - Radiofrequency Neurotomy
 - Lumbar 64635-64636
 - Cervical/Thoracic 64633-64634
 - Myelogram
 - Discography
 - Selective Spinal Nerve Block
 - Lumbar 64483
 - Cervical/Thoracic 64479
 - Pars Injections 64493
- **Face and Head**
 - Occipital Nerve Block 64405
 - Supraorbital Nerve Block 64402
 - Trigeminal Nerve Block 64400
- **Joints**
 - Sacroiliac Joint Injection G0260 & 27096
 - Shoulder Injection 20610
 - Hip Injection 20610
 - Knee Injection 20610
- **Sympathetic Blocks**
 - Stellate Ganglion Block 64510
 - Celiac Plexus Block 64530
 - Paralumbar Sympathetic 64520
 - Superior Hypogastric Plexus Block 64520
 - Ganglion Impar Block 64520
- **Nerve Blocks**
 - Intercostal Injection
 - Single Nerve 64420
 - Multiple Nerves 64421
 - Ilioinguinal Nerve Block 64425
 - Axillary Nerve Block 64417
 - Pudendal Nerve Block 64430
 - Femoral Nerve Block 64447
 - Suprascapular Nerve Block 64418
 - Stump Injection 64450
- **Miscellaneous Injections**
 - Trigger Point Injection 20552
 - Piriformis Muscle Injection 64445
 - Psoas Muscle 64999
 - Hardware Injection
 - Spine 22899
 - Botox Injection for Migraines 64615 (J0585)
 - Lumbar Puncture (diagnostic and therapeutic) 62270
 - Blood Patch 62273
- **Implanted Device Management**
 - Spinal Cord Stimulator Implant
 - Lumbar, Thoracic, & Cervical
 - Intrathecal Medication Infusion Pump
 - Implant and Maintenance

Please call (316)733-9393 to schedule or if you have any pre-procedure insurance requirement questions. This is a partial list of procedures so please inquire if you do not see the desired procedure.

Dear Scheduling Professional,

Sabrina Nichols, RN is our point of contact for scheduling and can be reached by phone at (316)733-9393 or by fax at (316)733-6116. We understand how difficult, confusing, and at times frustrating the scheduling process can be. Our office schedules procedures and services so we understand both sides of the process. When you schedule your patients with our doctors you can be confident they will be seen, examined, and cared for by the doctor.

The requirements for preauthorization for many interventional pain management procedures frequently change. Insurance companies may require certain tests or treatments and/or may require a physician consultation prior to the performance of a procedure. We can help you navigate and understand the current requirements in order to expedite the process and to make this task easier for all concerned.

Our ultimate goal is to provide your patients with world class Interventional Pain Management services in hopes of reducing their pain and improving their function. We have included a partial list of procedures we perform. If you wish to schedule a procedure and do not see it on the list, please call Sabrina and ask if it is something we do. We consult on every patient prior to a procedure to add our expertise to the care of the patient.

We are both very experienced Interventional Pain Management physicians and master instructors for the International Spinal Intervention Society and travel frequently giving lectures and teaching other physicians about the procedures. We focus on safety, correct performance of the procedure, and of course doing this with minimal discomfort. We perform all spinal procedures using c-arm fluoroscopic guidance.

We greatly appreciate your continued referrals and excellent patient care.

Sincerely,

Milton Landers, D.O., PhD

Rodney Jones, M.D.
